THE CLEARFIELD PROGRESS, CLEARFIELD, PA., WEDNESDAY EVENING NOVEMBER 24, 1920

High School Lyceum Course

Presents

The Great Lakes Quartette

Tomorrow Night

New Definition.
It was at the end of Elizabeth Ann's first month at school. She had come proudly home with her perfect attendance card and with the information that there had been five absent minded children this month. On being asked what she meant she replied: "Why, that five children forgot to come to school."

Parents' Problem.
Should boys be allowed to play practical jokes. "Boys will be boys!" Teach them not to go too far; not to give pain; make clear that a joke is funny—something at which every one concerned can laugh. Further than this do not go in the way of restraint. —Exchange.

ONE WOMAN'S EXPERIENCE

Of Interest to Expectant Mothers

Goshen, Ind.—"I took Lydia E. Pinkham's Vegetable Compound with good results after I had suffered for some time with female trouble. Some years ago I had two boys and took your Vegetable Compound before they came; also before my four year old boy was born, and afterwards, and think it fine for such cases. I tell others what it did for me and you may publish my testimonial."
—Mrs. Geo. A. Foss, 711 S. 9th St., Goshen, Ind.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong and this good old-fashioned root and herb remedy contains no narcotics or harmful drugs. Sold at all drug stores.

An Appeal

TO THE REPUBLICANS OF THE COUNTRY
ALL THOSE WHO AIDED THEM:

The Republican success in the 1920 election has been commensurate with the quality of our candidates and the righteousness of our cause.

This success is the partnership accomplishment of all Republicans everywhere and of hundreds of thousand of well-wishers of good government regardless of past party affiliations.

To all of these we now appeal because it is the mutual responsibility of us all who will share alike in the consequent mutual benefit of good government.

The plan of limiting campaign contributions to \$1,000, adopted by your national organization, has left your party unmortgaged.

It has been a most advanced step in placing the business of politics on the highest plane, and has brought an interest on the part of thousands who never before have been concerned with politics.

Some weeks before election it was apparent that the expenses provided for in our budget, with the strictest economy, would exceed the contributions, but we were unwilling either to leave undone any legitimate effort essential to complete success or to change the method of raising money. We were then sure and we are now sure that every Republican desires that the expenses of the campaign be distributed in this manner.

Your presidential campaign this year cost no more than that of 1916, when a dollar went nearly twice as far as it does today.

Four years ago the bulk of the campaign fund came from 750 contributors, while this year the approximately \$2,000,000 contributed to date for the presidential election has come from 50,000 givers.

The victory won, the raising of the deficit would be easy, indeed if your committee were willing to abandon the policy of keeping down the average of contribution. This we are determined not to do. It was a fight of all the people. The result speaks for itself. It lifted a burden from the minds of millions and points the way to better and happier days. We ask now for that additional help from all which is merited both by the successful conclusion of the effort and by the consequent contribution to the welfare of all of our people and the glory of the nation.

Let us now have help from every American who is grateful for the victory and all that it means to the country. It might well be in the nature of a thanksgiving offering for the return to a certainly safe sane, constitutional progressive government.

Let us by general and generous giving put the seal of approval upon the policy of putting a national administration in power free from any possible embarrassment of special obligation to any man, men or group of men. Let us make the contribution whether large or small, and whether or not we have heretofore given, commensurate with our means and our appreciation, always within the maximum limit heretofore fixed.

Let us get our names on the cornerstone of a sturdier political structure upon the roll of those who have helped make possible a campaign of which, in methods and result we may as Republicans and patriots be justly proud.

Most earnestly we urge that this aid be given quickly, that your committee may be enabled to discharge the party's obligations and turn to further constructive work in behalf of party and country.

REPUBLICAN NATIONAL COMMITTEE,
WILL H. HAYS, Chairman

Checks should be made payable to Fred W. Upham, Treasurer or James G. Blaine, Jr., Eastern Treasurer, and sent to the Committee's Office, 19 West 44th Street, New York City, N. Y.

ROSS & WOODS

Keep The Egg Basket Full!

The feed elements that make whites of eggs are entirely different from those that make yolks. When hens aren't fed both the white and yolk making elements, they can't keep the egg basket full. The usual method of feeding mostly grain makes yolks but not enough whites to complete the eggs.

Missouri Experiment Station tests prove that 100 lbs. of wheat, corn, oats, barley and kafir corn make (above bodily maintenance) an average of 224 yolks to 154 whites. Based on data from the same experiments, Purina formulas produce, (above bodily maintenance) as follows:

	Yolks	Whites
Purina Hen Chow	247.49	142.11
Purina Chicken Chowder	182.05	282.55
Combined Ration	429.54	424.66

These Purina chows not only make a practically equal number of whites and yolks but more of both than ordinary chows.

Note that Purina Chicken Chowder contains the necessary white forming elements to balance up the yolk making grain ration. That's why it makes hens lay so heavily. Instead of the yolks being absorbed by the hen's system, Purina Chicken Chowder makes the whites to complete the eggs and they are laid. Thus we can absolutely guarantee

more eggs or money back on Purina Chicken Chowder if fed with Purina Hen Chow as directed. You take no risk.

NO REST—NO PEACE

There's no peace and little rest for the one who suffers from a bad back, and distressing urinary disorders. Clearfield people recommend Doan's Kidney Pills.

"Ask your neighbor!"

"Be guided by their experience."

Mr. M. M. Condon, 204 Merrill street, Clearfield, says: "I had a lame back and suffered for a long time with distressing backaches. I just was unable to stoop or to lift anything heavy and nights I couldn't get well. I was annoyed by the increasing action of my kidneys, too. I used Doan's Kidney Pills and they relieved me of the lameness in my back and regulated the action of my kidneys." (Statement given June 20, 1919.)

On February 18, 1919, Mrs. Condon said: "I am still using Doan's Kidney Pills and think as highly of them as I did when I endorsed them some years ago."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Condon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Paint Brush's Many Uses.

Nothing is better to take dust down the stairs than a good paint brush. It removes the dust from the corner of each step, brushes between the stair railings of moldings in a way no cloth can possibly do. Indeed, a medium size paint brush of about four inches width has many uses in the house.

Simple Filter to Clean Oil.

As a means of separating dirt, metal dust, etc., from used oil, the filter which may be made in the following manner will be found very efficient: Fasten a piece of muslin or cotton cloth to a metal or wooden ring large enough to fit over the top of a can, drum or other vessel. The cloth should be left a little slack and into the hollow bag so formed a quantity of sawdust is placed. The oil to be filtered is poured through and leaves its foreign matter behind in the sawdust.

ASTHMA

No cure for it, but welcome relief is often brought by—

VICKS VAPOR

Over 17 Million Jars Used Yearly

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop itching, itching eczema quickly by applying Zemo. Furnished by any druggist for 5c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. It is not greasy, salve and does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

The E. W. Rose Co., Cleveland, O.

Dressed Chickens And Plenty Of 'Em

You'll find the best home killed chickens here for your Thanksgiving dinner. And the beauty of it is that the price will be within the reach of all.

Some Turkeys

They're scarce but we've secured a few to keep the traditions of the day alive. What we have are beauties too.

Other Meats

Perhaps you prefer some other sort of meat—a nice roast of beef or pork, a flank for stuffing—a rich juicy steak. We'll have these aplenty at the usual Norris underpricings.

GREAT WORK OF RED CROSS IN PENNSYLVANIA

Hundreds of Thousands of Persons Assisted by Great Organization of Mercy.

MONEY CONTRIBUTED HERE IS SPENT IN HOME WORK

Enormous Number of Lives Saved by Red Cross in Influenza Epidemic, and Nursing and First Aid Activities.

The extent to which the American Red Cross has entered into the lives of the people at large in the Pennsylvania-Delaware Division, comprising the states of Pennsylvania and Delaware, is not generally known. During the past year, the first full year of operation under the comprehensive peace program, this great organization has given aid to more than half a million of the population of this state and Delaware.

The Public Health.

Of all these activities the public health and nursing service is the most far-reaching in its effects at the present time. The Red Cross is actively co-operating with Dr. Edward Martin, State Director of Public Health to aid in the betterment of the public health and he recognizes the power for good of the organization. Nursing services have been established by many chapters of the state, some of them being Erie, Corry (Erie County); Clarion, Brookville (Jefferson County); Armstrong, Indiana, Westmoreland, Pittsburgh, Beaver, Mount Pleasant, (Westmoreland County); Washington, Fayette, Greene, Somerset, Clinton, Cambria, Tioga, Cameron, Ridgway, (Elk County); Franklin (Venango County); Du Bois (Clearfield County); Clearfield, Bellefonte, (Center County); Moshannon (Center County); State College (Center County); Huntingdon, Fulton, Juniata, Franklin, (Franklin County); Wayne, Lebanon, Wyoming Valley, Wilkes-Barre, (Luzerne County); Pike, Greater Berwick, (Columbia County); Danville (Montour County); Monroe, Carbon, Catskill, (Lehigh County); Allentown, Mahanoy City, Bethlehem, (Northampton County); Harrisburg, Southeastern Pennsylvania (services established in Bucks, Montgomery, Chester and Delaware Counties); Wallingford (Delaware County); Lancaster, York, Duncansville, (Washington County), and four established in the state of Delaware.

During the first six months of the year in the nursing service in Pennsylvania, the public health nurses made 44,537 visits. There are now sixty-five nursing services established and eighty-four nurses are employed in the public health services.

The astounding number of visits made during the year to the sick who are unable to secure proper attention for themselves may be seen when it is considered that each nurse makes about 115 visits a month. In the Tioga chapter, for example, the three nurses employed by that chapter made 1510 calls, and about this same proportion is maintained in the other chapters. In another chapter, prompt Red Cross measures prevented an epidemic.

Teaching First Aid.

Scarcely second to the public health education and nursing service, are the classes for the teaching of First Aid to the Injured. In the United States as a whole, there are about 100,000 fatal accidents annually, and fully 600,000 which do not result fatally. Pennsylvania, as a great manufacturing and mining state, with about one-twelfth of the population of the country, can therefore count on at least 8500 fatal accidents and about 45,000 non-fatal ones, each year.

But a non-fatal accident may easily result in the death of the victim unless prompt and efficient aid be given, and this is what the Red Cross First Aid teaches. It is impossible to estimate the number of lives saved in Pennsylvania and Delaware by the Red Cross during the past year by means of its First Aid classes, but it must be a very considerable number.

During the first six months of 1920 the Red Cross conducted 41 First Aid classes in which there were 1245 students, of whom 711 received certificates of graduation. This number will be greatly increased before the close of the year.

Among the chapters which have added first aid courses to their activities are: Erie, Crawford, Warren, Brookville (Jefferson County); Oil City (Venango County); Punxsutawney (Jefferson County); Armstrong, Indiana, Butler, Beaver, New Kensington (Westmoreland County); Pittsburgh, Latrobe (Westmoreland County); DuBois (Washington County); Mount Pleasant (Westmoreland); Somerset, Fayette, Greene, Snyder, Greater Berwick (Columbia County); Danville (Montour County); Southeastern Pennsylvania (Philadelphia) and the Delaware Chapter.

During the Epidemics.

No stronger evidence of the efficiency and preparedness of the Red Cross can be shown than in the influenza epidemics of the past two years. By a prompt mobilization of the Red Cross nursing resources thousands of lives were saved in Pennsylvania, and

the Red Cross Chapters stood gallantly by the families of the victims, giving food, fuel and money where necessary, until the unfortunates were again self-supporting. Fully 100,000 cases were administered to in this state and Delaware by the Red Cross, and many lives were thus saved which otherwise would have been sacrificed.

The teaching of Home Nursing by the Red Cross is another most important activity. Ninety per cent of all cases of illness are nursed in the home and with this percentage, home nursing is of the first importance.

During the first six weeks of 1920, the Red Cross conducted 226 classes in Home Hygiene and Care of the Sick. 77 instructors teaching 2845 students, most of whom passed satisfactory examinations.

This great record was made by a large number of the chapters, as the Home Hygiene course is instantly recognized as a thoroughly practical one and it is taught by actual demonstration as well as precept. Tioga County graduated 420 pupils and Lycoming, Potter, Union, Kane, McKean County, Wilkes-Barre, and many other chapters had notably fine records.

Home Service Work.

This activity grew out of the war, and among those chapters which have secured permission to extend home service to civilian families are Mercer, Beaver, Titusville (Crawford County); Forest, Oil City (Venango County); Punxsutawney (Jefferson County); Indiana, Perry, Westmoreland, Latrobe (Westmoreland County); Fayette, Somerset, Wyndber (Somerset County); Cambria, Huntingdon, Mifflin, Juniata, Harrisburg, Southeastern Pennsylvania, covering Philadelphia, Bucks, Chester, Delaware and Montgomery Counties; Southern Schuylkill, Carbondale (Lackawanna County); Easton (Northampton County); Adams, and the Delaware Chapter. A number of other chapters have made application for this permission.

In the first part of 1920 Home Service has been rendered in about 20,000 cases, excluding entertainments given by the Red Cross, the attendance at these entertainments reaching about 100,000. Thus Home Service alone came into contact with almost 200,000 persons in the state.

Specific cases of what Home Service has done might be multiplied indefinitely. The Harrisburg Home Service paid for a delicate and expensive operation, which gave a hopelessly crippled little boy the normal use of his legs and will enable him to become a useful member of his community. The Scranton Home Service helped a blind soldier open a store which he is successfully conducting and made him a self-supporting citizen instead of a dependent upon others. Cases such as these might be mentioned in almost every chapter in the state. In Fayette County Chapter, Home Service handled 2300 cases in the first half of the year and the Beaver County Home Service and Juniors together have provided for tonsil and adenoid operations for children unable to pay for these.

Baby Welfare Clinics.

The Red Cross pays especial attention to the health of the baby and in the first half of 1920 baby welfare centers were opened by 30 chapters with enormously good results. A few of the chapters doing this great work are Southeastern Pennsylvania (at Ardmore and Coatesville), Greater Berwick (Columbia County); Carbon, New Bethlehem (Clarion County); Latrobe, Indiana, Delaware and many others.

It is impossible to say how many little lives were saved by the Red Cross and how much suffering averted, but the number is undoubtedly very large.

Special Activities.

But the work of the Red Cross for the people of Pennsylvania did not end here. There were many special activities conducted by chapters. The Delaware Chapter maintains a very efficient Motor Corps which takes the nurses from place to place, rushes desperate cases to the hospitals and gives pleasure rides to the aged and the poorer children; the York Chapter has a mental hygiene dispensary which has done remarkable work in its specialty; dental clinics are conducted by the Lawrence County and many other chapters; Armstrong County, New Bethlehem (Clarion County), and Kitzing (Armstrong County), as well as some other chapters, have opened free community centers and rest rooms, maintained by the Red Cross chapters; Berks County (Reading) has a remarkably successful continuation school to enable those who most work, to continue their studies.

Shippensburg Chapter (Cumberland County), has supplied clothing to children who otherwise would be unable to obtain it. In Carlisle, the same county, there is an Ideal Nurses' Recreation House at the hospital, provided by the Red Cross; Corry (Erie County), has started a Little Mother's League; Blair County, as well as many other chapters, conducted first aid tents at the County Fairs; Wyoming County has a Nursing Class and an established Little Nurse; Milton (Northumberland County), has established a Health Center as have many other chapters of the Division, while Bedford distributed 600 garments to the poor of the county, besides furnishing them with food, fuel and supplies. Junior activities are notable in the Bradford and McKean chapters.

On this proud record of a year the Red Cross asks the people of the Pennsylvania-Delaware Division for its endorsement in the coming Roll Call. All this, and far more, has been done on one dollar memberships. Every resident of these two states who has the welfare of his community at heart should join the Red Cross in the 1920 Roll Call, November 25, Thanksgiving Day, to November 25, Thanksgiving.

Remember this.

Making Both Ends Meet

The consumer pays too much for food, the farmer receives too little. Between them is a gulf of wasteful distribution methods and speculation. The problem of bridging it faces alike producer and consumer, says

The COUNTRY GENTLEMAN

The farmer has been doing his best with cooperative shipping and marketing; now the consumer at his end is forming direct cooperative buying associations.

In a coming issue of THE COUNTRY GENTLEMAN James H. Collins tells the story of a league of New York restaurant keepers who aim to buy farm produce cooperatively, direct from the farm. They say it's the only way they can make both ends meet these days. Farmers in every branch of the industry have about reached the conclusion that only

Ouch! Lumbago! Rub Pains From Sore, Lame Back

Bob Backache Away with Small trial bottle of old "St. Jacob's Oil"

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacob's Oil". Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin. Limber up! Don't suffer. Get a small trial bottle of old, honest "St. Jacob's Oil" from any drug store, and after using it just once, you'll forget that you ever had the backache, lumbago, or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

Don't Be Discouraged.
"No one has yet been successful in making an actual murder," states a picture goes' journal. It certainly does seem a pity that our murderers are so terribly self-conscious in the presence of a camera man.—London Punch.

MICKIE SAYS

MISSING MEN BEING SOUGHT

Relatives and Friends Are Anxious to Hear From Those Who Know Facts.

A number of additional war mysteries have been announced by the nationwide campaign to clear up all doubt as to the fate of men missing in the World conflict. Any persons having information as to the circumstances surrounding the death or disappearance of the following men are urged to communicate with the Gold Star relatives or friends:

EDDIE FLYNN, Co. M, 34th Inf., arrived in France Dec. 2, 1917. He was last heard from June 12, 1918. No word was received from War department that he was killed. Address Mrs. B. L. Flynn, 418 Cherry St., Anacosta, Mont.

NORMAN O. LARSON, formerly Pvt. Co. M, 34th Inf., was reported killed in action Oct. 19, 1918. He last wrote to his family on October 15 that he was about to be transferred to another company. Details of his death wanted by H. L. Petersen, Twin Lakes, Minn.

CLARENCE K. KEPPLER, former mechanic, Co. A, 34th Inf., reported killed in action in the St. Michael drive. His mother, Mrs. Alice Keppeler, Arsenal N. M., wants to learn details of his death.

FREDERICK H. BAYNES, Sgt. Co. G, 14th Inf., reported killed in action on Oct. 12, 1918. Friends have told his mother, Mrs. F. A. Baynes, 966 Monmouth Street, Gloucester, N. J.

BURT W. BOYD, Co. G, 9th Inf., reported killed in action on July 14, 1918. Reported seen on Dec. 21, 1918, in Base Hospital No. 34. Information as to his fate wanted by his mother, Mrs. James Boyd, Monmouth, W. Va.

ANDREW J. OTTINGER, former Pvt. Co. I, 34th Inf., reported killed in action Oct. 7, 1918. Anyone with definite information on death write Peter Pittenger, Oaklawn, Kan.

RALPH E. BRENN, former 1st class pharmacist, Naval Railway battery No. 1, reported to have died in Evacuation Hospital No. 7 on Oct. 25, 1918. His mother, Mrs. G. E. Brenn, 14 N. Washington St., Gettysburg, Pa., wants information as to his death.

IS NEW ASSISTANT ADJUTANT

Russell G. Creviston, Who Has Been Much Active Service, Is Appointed to Important Position.

Russell G. Creviston, who has been appointed assistant national adjutant of the American Legion by F. W. Galbraith, Jr., national commander, was director of organization at national headquarters from November, 1919, to October, 1920.

A Hoosier by birth, Mr. Creviston enlisted in May, 1917, in company E of the Fourth Indiana Infantry. He served as a private in this company for three months when he was selected as a candidate from his company to the second officers' training camp at Fort Benjamin Harrison, Indiana. After his graduation from the camp he was given complete charge of the administration co-ordination section of the general staff of the eighty-fourth division.

Mr. Creviston assisted in the organization of a vocational training system, and in this connection was transferred to the inspector's division and given charge of the states of Iowa, Minnesota, Nebraska, North and South Dakota, where he established various student army training corps.

After the completion of the S. A. T. C. movement, Mr. Creviston was transferred to the general staff and put in charge of the ninth district commission on training camp activities. With the rank of captain he covered nine states of the Middle West in the interest of bettering camp and non-camp cities during the demobilization period. He was discharged June 7, 1919, and accepted a position in the Community Service, Inc. of New York, which loans his services to the American Legion.

POST WITH ALTITUDE RECORD

"Top of the World" Organization of Peru at Height of More Than 14,500 Feet.

The "Top of the World" post, claiming to be the highest in The American Legion, and the first and only unit thus far established in Peru, has been founded by 16 ex-service men in a copper mining camp at Cerro de Pasco, and the altitude record it has set up for other posts to shoot at is 14,500 feet.

"So far as we can determine," writes Clyde A. Warner, the post adjutant, "this is the only post in Peru, and certainly in this district of Peru, known as the Junin Pampa. By location and transportation facilities, Cerro de Pasco is the logical meeting place for ex-service men in other camps in the central Peru Montana district. It is the largest camp and town in the district including Aroya, Morococha, La Fundicion and Casapalca.

"The name 'Top of the World,' was unanimously selected as an excellent name for the post, due to the fact that we are at an altitude of a little more than 14,500 feet and we believe we are the highest post in the Legion."

The post is planning to conduct a membership drive in the surrounding territory.

Stand of Colors Presented.
A stand of colors has been presented to Aaron Wittkamp-Cowell post of the American Legion, Tuckahoe, N. J., by the people of the township. Although it has but a membership of 28, the post is full of activity and is about to make a drive for a \$2,000 home.

Excusable.
When the mercury is past 95, you have our permission to say sweat instead of perspiration.—Arkansas

AN ENEMY TO GOOD HEALTH

Good health has no greater enemy than constipation. You cannot "keep fit" for work or play if the bowels are irregular or clogged with a decomposed mass of undigested food from which the blood picks up disease-causing impurities and carries them throughout the entire system. Foley's Cathartic Tablets are mild but sure in action. They banish biliousness, sick headache, sour stomach, and other ills caused by indigestion. Take one tonight and you will feel better in the morning.

They Bought Nash Cars

Now we have the following second hand cars for sale:

Buick Roadster, 1919 model, cord tires with two extras. General condition of car excellent.

Chevrolet Touring model 490. Good condition.

Nash Five Passenger 1918 model. In good condition.

Any of the above cars will be sold at a bargain to a quick buyer.

In the Dining-Car

THE dining-cars of the New York Central Lines are not run for profit. They exist solely for the convenience and comfort of travelers. The greatest care is exercised in the selection of the food. No big hotel could be more particular in this regard.

As you take your seat and order your meal, have you ever stopped to consider that you are but one of 10,726 persons served every day on these Lines? That twenty years of thought and effort and planning stand behind the serving of this single luncheon or dinner?

This dining-car service, concentrated under one roof would, in itself, constitute a problem; but, scattered over a territory embracing twelve thousand miles or more, it represents a responsibility of even greater magnitude.

DID you know that the New York Central Lines purchase 2,015,000 pounds of meat a year for consumption in their diners? That there are 154 dining-cars like that in which you are riding, and that this number is being rapidly increased? Twelve new dining-cars will soon be completed and in use. These cars cost approximately \$46,000 each—an investment which would make possible quite a commodious night-and-day city restaurant.

The number of waiters who serve the traveling public on these Lines is 884, and in the course of a year 42,993 bushels of potatoes are bought; 235,392 pounds of butter; 720,000 loaves of bread; 365,475 pounds of chicken; 371,193 pounds of sugar; and 324,060 dozen eggs.

In the compact kitchens are 651 busy cooks. And the unbelievable sum of 14,076,108 pieces of linen are laundered every year.

EVERY employee in our dining-cars is physically examined at the time of his engagement and at stated intervals thereafter, and must pass exacting tests.

Under the pressure of many transportation problems, the comfort and convenience of passengers have always been major considerations on the New York Central Lines.

Listen, My Dear, You May Be Stylish and Still Have Hips

By "MARJORIE"

(Written for the United Press)

NEW YORK, Nov. 12.—Fifth Avenue's showing of real midwinter dresses is playing some tricks on the straight-line chemise dress. A glimpse at the windows all bedecked with rich gowns for hurly-burly winter weather gives a strong hint that by springtime the dresses will be fuller and a wee bouffant.

It is the uptown houses which exploit "original models and imported creations" that are ringing the knell of the "string bean dress." They are following the example of Paris which has swung away from the straight-line dress for so long that it is about ready to swing back to it. America's swerve from a universally-becoming type of dress will be more gradual, however. The courtiers are using all their cleverness to merely fleck the gowns with some phase of the new trend.

Thus, one of the leading gown houses of America is showing a collection of rich duvetyns and velvets whose main deviation from the lines of the chemise dress is found in the irregular hem line which curves upward at the front of the gown. The hem continues into a wide contracting facing. Thus, a model of cochon brown velvet continues its up-and-down hem line into a wide front banding of marigold colored broadcloth satin. This upward sweeping front line is found in many of the late winter models and gives promise of a directoire or Empire line before long, as a high waistline seems to blend best with this mounting hem.

Other houses are sponsoring a new silhouette by inserting umbrella folds at the sides. Rich metallic brocades or satins are combined in this way with the main fabric of velvet, duvetyn, or a heavy wool velour. This exploitation of the hips is very contrary to the prevailing straight-line mode. Other hints of a coming season's bouffantness are given by horizontal pin tucks at the hips or fan-shaped pleatings of contracting, lighter-weight fabrics.

Panel at the sides are also being used. This fad is especially noted in black-and-white costumes. One house is showing an importation of wide wale white serge or twill banded and paneled in black satin. Small pearl buttons outline the bandings and hip panels. Panels, by the way, are very chic when used as overtones. Another importing house is showing a street gown of midnight blue serge and black satin. The satin is used as a rather clinging underslip and the serge is the tunic. It is about knee-length and is cut into deep points of uneven length. Some of the points are edged with tiny silk tassels, that flop about most piquantly.

Midwinter frocks, however, are not forsaking all the fashion degrees of the earlier fall season. They are more chary of the tinsel and embroidery that frosted the gowns of yesterday, but they are exploiting the craze for insets of contrasting color and material.

That naïve little pastime which a popular song epitomized some time ago, known as "looking through the knothole in father's wooden leg" had no view at all compared with that of the flip little rosettes, dabs of beads and other gewgaws that are poked through a slash or eyelet in the bodice or skirt of a gown or the front of a blouse.

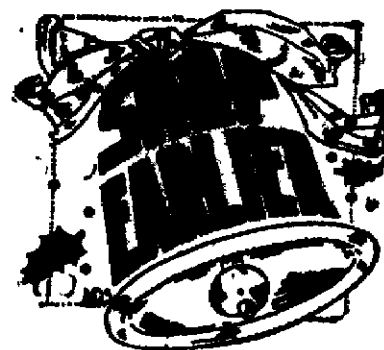

One house is showing a new model of seal colored duvetyn. If one has seen the fabric "in the piece" it would surely have been called damaged goods, for it is erratically covered with oddly shaped holes and slashes. As made, however, the openings come at the top of the skirt, over the shoulders, and at the middle-front of the bodice. These apertures are filled in with almond colored chamols akin.

Other dresses are full of large eyelets embroidered in colored silk and filled in with tiny dabs of gay ribbon or even tufts of fur. One house is showing a gown of black velvet promiscuously slashed. The slashes are underlaid by ermine paillettes.

In Regard to Style.

If a person admires a particular method of arranging words, that arrangement will occur naturally in his own diction, without malice aforethought. Some writers unconsciously fall into the mode of expression adopted by others. This illustrates a similarity of disposition, and is not imitation. As a style, when it is natural, comes rather from the heart than the head, men of similar tastes and feelings will be likely to fall into a similar form of expression.—Edwin F. Whipple.

LESSONS IN OPTOMETRY

HARRY H. ROSENTHAL, O. D.
Woodbridge Building, Clearfield, Pa.

LESSON TWENTY-THREE

Explain further why a patient must get used to glasses in many cases before comfort is secured.

Where the muscles of the eyes have for years labored against an error of vision, they have in a sense become used to the work of trying to overcome the error. When glasses are worn this duty is taken from the eyes and the muscles have to adjust themselves to the new conditions. This adjusting process causes the patient more or less distress as a rule, but by exercising the necessary patience perfect comfort is secured.

An error of vision that is important enough to be corrected, should be kept corrected, should it not?

Yes, the error is corrected only when the glasses are worn. The minute the glasses are removed from the eyes the error ceases to be corrected, and for that reason the patient should diligently strive to become accustomed to his glasses in order that he may derive the necessary benefit from them.

Three Cents a Bath.

The pet dogs of the gay Parisiennes supply a source of livelihood to many men in Paris. They are stationed along the Seine river, and do a good business bathing dogs for their owners. Many sit on one of the park benches along the river while Fido is given a good bath and thoroughly dried—all for three cents.

Ancient Inventions Used on Motors.

Perhaps the oldest design used in the modern automobile is that of the universal joint, which in principle is identical with the first universal developed by Cardan around 1520 A. D. Such joints are used in all modern automobiles and trucks in order to allow the propeller shaft to revolve and at the same time move up and down and side-ways relative to the rear axle. The axle bounces up and down according to road conditions, but the propeller shaft must connect this bouncing part with another unit attached to the frame of the car.

Halloween Superstitions.

In the north of England the country people were so afraid of evil spirits coming to earth on Halloween that they built huge fires and stood on guard to see that no witches sneaked in around the flames. Some even believed if they braided straw, fastened it to a pitch fork, then set it on fire and waved it in the air, they could ward off the attacks of witches.

Sometimes "absence makes the heart grow fonder"—of absence.—Cartoons Magazine.

BAD BREATH

DO YOU WANT your friends to avoid you? They will certainly do so when your breath is bad. There is no excuse for anyone having a bad breath. It is caused by disorders of the stomach which can be corrected by taking Chamberlain's Tablets. Many have been permanently cured of stomach troubles by the use of these tablets after years of suffering. Price 25 cents per bottle.

SHOW DOWN TO BE DEMANDED FROM GERMANY

Australian Member of League
Assembly insists Hun Doll
Be Met Without Delay

SHOWS GERMAN PURPOSES

GENEVA, Nov. 24—Germany has forced her way into the League of Nations discussion. The whole German situation will be canvassed Thursday when her protest against the distribution of her colonies is to be discussed. The assembly put the question on the Thursday calendar when E. D. Millen of Australia demanded a decision. Viviani of France and Balfour of Great Britain usually to the forefront in any discussion hearing on Germany took no part in the debate. In an interview today Millen declared "It was necessary to call a show down on Germany's impudence. Berlin was inspired by two motives in sending the impudent note in which she said she no longer considered herself bound by the colony clause of the treaty."

"She hoped to disrupt the League by causing a disagreement among its members then she hopes to obtain postponement of the distribution of the mandates until she becomes a member of the League. Qualified for a mandate herself she can thus obtain control of her former colonies. Australia will insist upon a distribution of mandates as previously agreed upon. It is none of Berlin's business how the mandates are distributed. Whether the Supreme Council of the League is entitled to distribute them is purely technical."

STATE DEPARTMENT GETS READY TO REG- ULATE JAKY 'SALES'

Arrangements for state department of Health co-operation with the Federal authorities in enforcement of the rulings requiring Jamaica ginger and similar concoctions to be sold under regulations are being worked out at the state capitol and as soon as the details of the plan are announced the state activities in regard to drug control will be co-ordinated. Dr. Thomas S. Blair, chief of the bureau of drug control, has gathered evidence showing great extent of sales of the ginger and also that old-fashioned "drops" made up largely of ether and alcohol have attained a popularity as sudden as it is widespread. The effect of the Federal regulations will be to greatly restrict sales of ginger and it is believed here that some regulations whereby paregoric will be restricted to drug stores instead of being sold in many grocery stores as has been found to be the case by state agents.

DE FEO PROMISES BETTER SOPRANO THAN MISS YORK

Under the auspices of the Clearfield Musical club the De Feo Opera Stars will give a concert in the High School Monday night, November 29. Mr. De Feo as you all remember was here last year and gave us three evenings of grand opera. Mr. De Feo tells us that he has a soprano in this company who bids fair to even surpass Helen York, who made a hit here with the Opera company, and who afterwards returned in her own company.

THANKSGIVING SERVICES IN CLEARFIELD

Union Thanksgiving services will be conducted at the Baptist church and Eleventh Street Methodist Church tomorrow. The services for the First, Second and Third ward will be held at 10 o'clock. Rev. C. C. Snively will preach. Fourth ward services will be held at 7:30 o'clock. Rev. Alban will preach. Roman Catholics will attend mass at 7:30 a. m. All are cordially invited to attend divine service.

ARMY OF RED CROSS WORKERS TO TAKE FIELD

Sunday, November 28th will be observed in the Clearfield churches as Red Cross Sunday, and the campaign for membership will start in the afternoon with bells ringing and whistles blowing. When you hear this demonstration of noise, don't misconstrue it to mean danger or any national calamity. It will mean that the canvassers are leaving Red Cross headquarters and will appear within a short time at YOUR home. Please have your dollars ready. If you have already subscribed, your window card will tell the story, and save that much time to the solicitor. If you are unavoidably absent from home, leave your subscription with a neighbor.

Below you will find a list of the borough chairmen and teams. This work has been efficiently organized under the leadership of M. M. Overly, borough chairman and his vice chairmen, Philip B. Reed, Howard Stewart, James Kerr and William Leitzinger.

It only remains for the solicitor and YOU to complete the good work. There will be a meeting of the solicitors Friday evening at 7:30 for instructions. The meeting will be held at the Red Cross rooms. HOWARD STEWART, Dist. Chm.

EATING FROSTED APPLES KILLS AGED MINER NEAR CITY

Peter Kolarczik, aged 62, a miner, was found dead in bed at his shanty near Carbon mines Monday morning last.

District Attorney Arnold was notified and ordered County Coroner Dr. J. I. Pollum, of DuBois, to make an investigation into the circumstances surrounding the death of Kolarczik. The investigation and autopsy established the fact to the satisfaction of the Coroner that the man was not the victim of foul play but that he died of acute indigestion superinduced by a large quantity of frosted apples which the deceased had eaten Sunday afternoon or evening. The remains were turned over to Undertaker F. B. Leavy for burial.

DuBOIS CUE SHARKS GETTING REAL CHESTY

P. A. Carmelli, of the Avenue billiard academy, has selected three graduates of that institution to represent upon the green cloth in any kind of a conflict with any similar team from any other billiard room in Clearfield, Elk or Jefferson county for anything from chalk up. Joe Anderson is the billiard exponent, George Rensel, poolist and Dewey Mohney three cushion entry. Mr. Carmelli is anxious to receive entries at his headquarters.—DuBois Express.

DISCHARGED WORKER GOES ON ON WAR PATH AT BRICKYARD

Nick Fama, an Italian who recently secured a passport for the purpose of returning to Italy, applied for a job at the lower Harbison-Walker brickyard Thursday last. Superintendent McClure told him to report for duty on the night shift, but Fama said he didn't want to work at night, and Monday turned up at the yard and went to work. He was discovered about 11 o'clock and discharged.

Fama returned to the yard yesterday morning about 11 o'clock and demanded pay for a full day but was told by the foreman that he would be paid for the hours he had actually worked. He got into a rage at this and grabbing a brick threw it at the boss. The brick struck R. C. Anderson, who was nearby, and when Fama started to run Anderson ran after him. Anderson gained on the fleeing brick thrower and when he was about to grab him Fama turned and thrust a revolver in his face. Anderson clinched with Fama and threw him down and during the scramble Fama struck Anderson on the back of the head with his gun inflicting another painful scalp wound.

Other workmen interfered at this point and separated the two men. When Anderson was taken off him Fama jumped to his feet and ran down thru the N. Y. C. yard and boarded the New York Central passenger train on the River line and got away.

Anderson was cut and bruised about the head but his injuries while painful are not serious.

FOOTBALL CLASSIC AT PITTSBURGH WILL BE PREMIER EVENT

PITTSBURGH, Nov. 24—When Penn State and Pitt clash tomorrow, they will be playing not only for the football championship of Pennsylvania, but the winner will claim the title of eastern champion. Penn State has been claiming the honor for the past fortnight and judging by comparative scores, Pitt shapes up as a logical contender for the same laurels.

Already the hotels are jammed with football enthusiasts, here for the big game. Nearly all of Forbes Field's 30,000 seats are sold and "SRO" will be at a premium when the teams line up for the kick-off.

With teamwork perfect, it looks like individual stars may decide the result. Remembering Tom Davies' sensational 90-yard dash from kick-off in the Pitt-Penn game, State's watchword will be "Look out for Davies," while Pop Warner has drilled Pitt to "clear the way for Tommy." With Harman at left tackle and quarterback Tommy Holleran in the game Pitt's offensive should be at its best. Penn State's stars will be watched closely for the feared State forward passes and brilliant runs. Hugo Bezdek's boys have a disconcerting way of pulling off long runs that keeps their opponents taut every minute of play—witness right halfback Charlie Way's 57 yards against Nebraska and left halfback Haines 80 yards in the Penn game. Captain Hess at right guard and Killinger at quarter are the respective pivots of a stellar defense and offense. Betting odds are about even, all conceding a close score.

A CORRECTION

In another section of this issue there is an advertisement to the effect that the Great Lakes Quartette will appear "Tomorrow Night." This is an error—it should have read tonight. The entertainment is a part of the Lyceum Course and the time is TONIGHT.

Miss Iona Davies and Miss Mary Hickson of Paxton, are visiting their friend Miss Irene Cole, of Ogden avenue.

use between the rails have not arrived yet and the job cannot be finally completed until this material is received.

HARRISBURG, Nov. 23—With the return of Pennsylvania's thousands of industries to peace-time working conditions the value of industrial production in the state fell a total of \$550,000,000 in one year, according to reports submitted today to Secretary of Internal Affairs James F. Woodward by M. Hobe Gottschall, Chief of the Bureau of Statistics and Information of the Pennsylvania Department of Internal Affairs. Mr. Gottschall's report showed that during the year 1919, the value of industrial production in the state was \$3,853,647,806. In 1918, when all records for production valuation in the Keystone state were broken and industrial Pennsylvania turned almost exclusively to the making of war materials and other manufactures necessary for the successful prosecution of the war, the value of the products turned out was \$4,403,306,600. In 1917 production in Pennsylvania was worth \$3,586,904,900 and in 1916 it totalled \$3,419,410,000 so that the records show that with the exception of the great war year of 1918, the year 1919 led all others in industrial valuation.

Inasmuch as the years 1917 and 1918 were abnormal years in industry, Secretary Woodward and Mr. Gottschall agreed that comparisons with 1919 should be made with the year 1916, considering both of those years as fairly normal years. On this basis, the figures show that the value of Pennsylvania's industrial output in 1919 was 38 per cent. more than in 1916. However, although there is no way of indicating whether the volume of production was any greater because it is a well known fact that prices of practically everything in 1919 were considerably higher than in 1916.

The great production valuation figure for 1919 was attained with less industrial plants, a lesser number of days worked, fewer employees and less invested capital than in any of the other years, with the exception of 1917, when the capital was somewhat lower than it was last year. In the amount of wages paid employees, 1918, of course, proved to be the high water mark but records show that the total wages paid last year amounted to over 46 per cent. more than the amount paid in 1916, notwithstanding that the number of employees was decreased in 1919. Last year there was a total of 30,688 industrial plants, reporting to the statistical bureau of the Pennsylvania Department of Internal Affairs. In 1916 there were 20,961, in 1917 there were 22,101 and in 1918, 21,158 were reported. Industrial establishments in the state last year worked an average of 275 days, ten days less than in either 1917 or 1918 and twelve days less than in 1916. The industrial plants of the state in 1919 gave employment to 1,523,608 workers, or twelve per cent. less than the number in 1916 when 1,735,643 were employed. In 1917 there were 1,802,813 industrial workers in Pennsylvania and in 1918 the payroll of the great mass of industrial plants carried the names of 1,827,101 employees. Of the persons employed in industry last year 1,019,230 were Americans, white, six per cent. less than the same class of employees in 1916. In 1919 there were 52,708 Americans, colored, engaged in industrial occupations, or 52 per cent.

more than in 1916. Figures for 1919 show the employment of 62,000 foreigners or 39 per cent. less than the number employed in 1916. In 1918, the banner year for employment in Pennsylvania, there were 1,254,112 Americans, white, 62,000 Americans, colored, and 60,000 foreigners; these figures showing a great decrease in the foreign class of labor last year when compared with 1918, the falling off of the foreigners alone amounting to 20,000.

Of the persons engaged in industry in 1919, 1,019,230 were Americans, white, 52,708 were Americans, colored, and 60,000 were foreigners. In 1918 there were 1,827,101 Americans, white, 52,708 Americans, colored, and 60,000 foreigners. In 1917 there were 1,802,813 Americans, white, 52,708 Americans, colored, and 60,000 foreigners.

Within the great mass of workers in Pennsylvania last year there were 10,000 boys and 10,000 girls, the age of 16 years and the age accordingly placed as children. In 1916 there were 10,000 boys and 10,000 girls under the age of 16 years, while in 1919 there were 10,000 boys and 10,000 girls.

Pennsylvania's industrial output in 1919 was paid a total wage of \$4,403,306,600. In 1918 the total wage was \$4,403,306,600. In 1917 the total wage was \$4,403,306,600. In 1916 the total wage was \$4,403,306,600.

Although the value of production increased last year in a great many classes of industry in the country from wartime production, the normal decrease in the value of the metal output could not be obtained. Metal production in Pennsylvania, which annually represents 40 to 50 per cent. of the total production valuation in the state, decreased \$1,000,000,000 last year, when compared with 1918 and it was difficult for other industries to make up such a great deficiency. The value of metal products last year totalled \$1,000,000,000 while in 1918 the value was \$1,000,000,000. Likewise there was a big decrease in the value of chemicals and allied products last year as compared with 1918. Chemicals were turned out extensively in 1918 for use in war munitions and with the close of the war there was a natural decrease in the value of this class of industry. The records show that chemicals and allied products last year had a total value of \$200,000,000 while in 1918 the value was \$442,000,000. Mines and quarry products likewise decreased last year. The value in 1919 being \$200,000,000 while in 1918 it amounted to \$442,000,000. Included in this class are anthracite and bituminous coal. In 1919 bituminous coal was worth \$237,475,000 while in 1918 the value

REAL THANKSGIVING

Could there possibly be any greater occasion for thanksgiving than this year? The horn of plenty is overflowing. There is no scarcity of any necessity and for the first Thanksgiving in four years we see prices on the decline rather than going upward. While this long looked for and welcome transition is slow in coming there are unmistakable signs that every day is bringing greater production of the necessities of life with consequent lower prices. Not alone in the material things have we cause for thanksgiving. The general state of health throughout the country is better than for the past three years and a fine spirit of philanthropy is manifested by nearly everyone. Out of this spirit has come help and support for our hospital, a desire to make the best use of the wonderful Red Cross organization, a remodeled Y. M. C. A. and support for our Legion Band. Anybody who cannot warm up the Thanksgiving spirit this year is most certainly as callous as stone.

SOME ANOMALIES

A repeal or revision of the "Brooks high license law" is one of the problems with which the next Legislature will have to grapple, but not the only one that ought to receive the serious attention of the State's lawmakers. The retail liquor interests are reported to be girding themselves for a struggle in defense of the present law, with perhaps some modifications, as against any attempt to enact a law for the enforcement of national prohibition. If the Governor has not changed his position since the last session, it is likely that he will insist upon the passage of a measure which shall put Pennsylvania in line with the Federal government on the subject.

At all events some action ought to be taken to correct the anomaly of a system which imposes upon the courts of the State the duty of licensing the sale of "vinous, spirituous, malt or brewed liquors" when it was plainly the intent of the prohibition amendment to put an end to that traffic. Of course, it is well understood that the State license is not for the sale of "intoxicating" liquors, and it is held that the conditions call for the regulation and restraint of the traffic in beverages that are malt or brewed but without the "kick" of the old-time beers, etc.

The trouble about the perpetuation of the licensing system under the Brooks law, or other live enactment, is that it perpetuates the saloon, and the saloon is universally recognized as the greatest of evils against which the Federal amendment was aimed. Furthermore, in the present state of public opinion and on account of the lax enforcement of the Volstead act, every licensed place for the sale of "near-beer" and other like beverages offers opportunities for violations of the law of which many of the vendors are only too willing to take advantage. It would seem, therefore, that state legislation, more far reaching than a mere amendment of the Brooks law and a limitation of the alcoholic content of the beverage licensed to be sold under it, is already an imperative need.

There are other anomalies that need correcting. The freedom with which firearms can be bought at every pawn shop or hardware store, not to mention department stores constitutes a daily invitation to the lawless. What is wanted is not a prohibition so strict that it penalizes the law-abiding citizen and gives a free rein to the thug and the outlaw, but a system of license and registration that will give the police some control over the matter. If the sale of revolvers could be restricted, under severe penalties, to those persons only who could present a permit from some responsible police authority, and if the magistrates and the courts could be depended upon to make summary examples of every person found with a concealed deadly weapon in his possession, matters would be improved if not wholly remedied.

Still another of the anomalies that suggest correction is the open sale of gambling devices. Gambling is forbidden by law, and the police habitually seize and destroy the apparatus found in gambling resorts when they discover such places. Yet roulette wheels, faro "lay-outs" and other articles of equipment for the professional gamblers can be bought by any one who has the price. And the purchaser does not have to seek far to find what he wants. Indeed, such things often figure as store-window displays on the city's principal shopping streets.—Philadelphia Ledger.

A Room For The Ladies

A comfortably furnished rest room for use of our women customers opens off the lobby.

It is supplied with writing materials and the late magazines.

Women are invited to make free use of their room at the County National.

The County National Bank
OF CLEARFIELD

United States' Bad Lands.
This is the translation of "Mauvais Terres," the term used by the French-Canadian trappers to describe these regions of unconsolidated rocks that have been extensively eroded. Bad lands occur on arid plateaus formed by horizontal strata of loosely cemented sands and gravels. The best examples of such regions are found in the upper portion of the Missouri drainage basin, in the vicinity of the Black Hills. Some are to be found also in Colorado, Arizona, New Mexico and Texas.

Church Bells.
The Angelus bell, always rung three a day, takes its name from the first words of the prayer. In Tuscany a bell is rung an hour before the evening Angelus, or Ave bell, and is intended to remind its hearers to say the creed. The De Profundi bell sounds one hour after the Ave. In Italy on Friday afternoon at 3 o'clock thirty-three strokes are sounded in many churches and convents in memory of Christ's death at the age of 33. The custom probably is followed elsewhere.

Another Royal Suggestion Biscuits and Cinnamon Buns From the NEW ROYAL COOK BOOK

BISCUITS So tender they fairly melt in the mouth, and of such glorious flavor that the appetite is never satisfied. These biscuits anyone can make with Royal Baking Powder and these unusual recipes.

Biscuits
2 cups flour
4 teaspoons Royal Baking Powder
1 teaspoon salt
2 tablespoons shortening
1 cup milk or half milk and half water
Sift together flour, baking powder and salt, add shortening and rub in very lightly, add liquid slowly, roll or pat on floured board to about one inch in thickness (handle as little as possible) cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

Royal Cinnamon Buns
2 1/2 cups flour
1 1/2 teaspoons salt
4 teaspoons Royal Baking Powder
2 1/2 tablespoons shortening
1 egg
1 cup water
1/2 cup sugar
2 1/2 teaspoons cinnamon
4 tablespoons seeded raisins

Sift 2 tablespoons of measured sugar with flour, salt and baking powder, rub shortening in lightly, add beaten egg to water and add slowly. Roll out 1/4 inch thick on floured board, brush with melted butter, sprinkle with sugar, cinnamon and raisins. Roll up for jelly roll, cut into 12 slices, place with cut edges up on well-oiled pan, sprinkle with a little sugar and cinnamon. Bake in hot oven 20 to 25 minutes, remove from pan as soon.

Are models virtuous? Some folks say it is impossible to associate Virtue with Art, especially where a model is concerned. This powerful story discusses and answers the question in a gripping and entertaining fashion. Don't miss it!

SPECIAL ADDED ATTRACTIONS

FAREWELL PARTY AT SUSQUEHANNA BRIDGE

A farewell party was tendered John P. McDermott at his home at Susquehanna bridge on Tuesday evening. A chicken supper was greatly enjoyed. The guest of honor is leaving for Indiana county in the near future. More than forty people were present.

Among the out of town guests were: Edgar Miller, Don Lane, William Mit-

chell, Eugene Wate, Amos Hess, Ruth Johnson, Pansy Curry, of Clearfield; Clara McKeown, Grampian; Elizabeth Draucker and Owen Kelly, Curwensville.

Parents' Caprice.

It is no wonder that during infancy and early childhood life's lessons are no difficult for the small beginner when the laws which govern them must seem to him just or unjust, consistent or inconsistent, according to the knowledge or the caprice of the adult administering them.

ALL DRUGGISTS SELL IT

20th Century Liniment Ends Neuralgia and Nervitis Instantly

Rub it on Freely—Nothing Speedier or Better Says Woodward & McPherson who are selling lots of it on the Money Back if Dissatisfied Plan

For miles around people are coming for 20th Century Liniment. The report of its mighty power to end aches and pains almost instantly and overcome all soreness and lameness has had its effect and druggists throughout the country report having a hard time keeping it in stock.

20th Century Liniment never disappoints and will neither burn nor blister. It brings quick relief from neuralgia, rheumatic pains and twinges, sprains and all soreness of nerves and muscles.

Don't think that because 20th Century Liniment doesn't smart, burn and blister it isn't doing good. It brings comforting, soothing relief with the first rub. Try it tonight and see if you don't feel it as a fiddle in the morning. If it doesn't do all and more than we claim for it, take the bottle back to your druggist and he will return your money without question.

Keep a bottle in the house all the time. You may need it on short notice, and remember that it is only sold on the money back if dissatisfied plan. Woodward & McPherson can supply you.

MANAGER EDWARDS ISSUES WRESTLING DEFY

Clearfield, Pa., Nov. 23, 1920
Sporting Editor
Clearfield Progress

Dear Sir—As manager of Bill Gardner, Clearfield's unbeaten welter-weight wrestler, I hereby challenge you and all 145 to 150 pound wrestlers in the county to a match at any time and place for a purse and side bet.

This challenge is especially directed to Paulie Roubie, of Boardman who has been blowing about what he is able to do with Gardner. We are ready for Bauble at any time or place on short notice and would like to have him put up or shut up.

Yours truly,
A. G. ("Tunk") EDWARDS

CAPTAIN BOAL IS COMMISSIONED IN STATE AIR SERVICE

Captain Pierre D. Boal of Boalsburg, Centre county, near Bellefonte, was recently named captain of air service in the Pennsylvania national guard. This is the first appointment in the Pennsylvania air service under the new national defense act and the details of the department will be worked out later. The war department will supply airplanes.

Captain Boal's mother was a French countess and he has the right to the title of count, inherited from her. In 1914 he responded to the call of his mother's country and enlisted in the French air service. When the United States got into the war he transferred to the American forces.

His father, T. D. Boal, organized and commanded what was known as the "Boal Machine Troop," when the United States entered the war, serving his unit in France and winning advancement, being attached to the headquarters staff of the Twenty-Eighth division as a major.

When the Twenty-Eighth division was reorganized Captain Pierre D. Boal was placed in command of the machine gun troop of the First cavalry which he organized in Centre county.

Captain Charles E. Sohl, of Bellefonte, has been transferred from the adjutant general's department to take command of the machine gun troop.

Made India "Dry."
Mas'ud, the mountain ruler of Ghazni and the plains of the Punjab, a generous patron of letters, an able architect and a warrior of no mean strength, who could fell an elephant at a single stroke and lead a vicious army, first instituted prohibition in Afghanistan and India in 1030 A. D., says a writer in Asia.

IF BACK HURTS BEGIN ON SALTS

If your back is aching or bladder bothers, drink lots of water and eat less meat

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 rains of acid and waste, so we can easily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot hurt; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking and no doubt you will wonder what became of your kidney trouble and backache.

ALMOST NINE THOUSAND HUNTERS

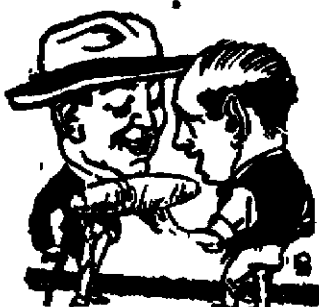

Hunters' licenses to then number of 8925 have been issued by County Treasurer Rumberger up until this evening. There was a total of 8921 issued during the entire season of 1919.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! How good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

PENNSYLVANIA'S INDUSTRIAL WEALTH IS VISUALIZED

(Continued From Page One.)

was \$407,585,200. Iron ore valued at \$2,057,700 in 1918 decreased to \$1,267,800 in 1919, while anthracite coal valued at \$352,455,900 increased to \$364,801,100 in 1919. Liquors and beverages decreased in production valuation from \$82,622,500 in 1918 to \$61,430,100 in 1919.

Big increases in production valuation last year were noted in textiles, tobacco and its products, clothing manufacture, clay, glass and stone products, food and kindred products, building and contracting materials, leather and rubber goods, lumber and its manufacture, paper and printing and laundry work. In 1919, building and contracting materials were worth \$195,627,500 while in 1918 the value was \$173,695,300. Clay, glass and stone products in 1919 worth \$178,876,800 had a value in 1918 of \$185,421,800. Clothing manufacture in 1918 was worth \$323,897,309 while in 1919 it increased to \$347,526,900. Food and kindred products in 1919 were worth \$509,806,400 while in 1918 the value was \$516,159,400. Leather and rubber goods showed a remarkable increase in production valuation within the year, the value for 1919 being \$339,502,200 while in 1918 the total value was \$242,637,600. Lumber and manufactured products in 1918 were worth \$116,862,800 while in 1919 they increased to \$144,982,000. Paper and printing industries turned out products in 1919 valued at \$270,561,700 while in 1918 the value was but \$202,660,900.

In production valuation increases, textiles surpassed all others, the value of these products in 1919 being \$646,683,000 while in 1918 it was \$531,314,900, or approximately \$115,000,000 less than last year. Laundry work worth \$12,276,800 in 1918 had a value in 1919 of \$13,030,80. Tobacco and its products also showed remarkable gains in the year, the value in 1918 being \$68,881,000 while in 1919 it totalled \$94,023,100. Of the value of tobacco and its products in 1918, \$57,622,500 represented the value of cigars manufactured in the state while in 1919 the value of cigars was \$75,445,500.

Under the item of food and kindred products, it is interesting to note that last year ice cream manufactured within the borders of Pennsylvania had a value of \$26,228,400 while the value of confections, including chocolate and cocoa products, was worth more than \$81,000,000. Sugar refined in Pennsylvania in 1919 had a value of \$128,682,700.

Within the boundaries of the Keystone state, the records kept by the statistical bureau in the Department of Internal Affairs show that almost every known kind of manufacture in the world is represented. Likewise among its industrial employes will be found representatives of every nation on the face of the earth. Finished products are shipped to all quarters of the globe.

Prior to the compilation of 1919 figures, records were kept of industry in the state using the various counties as the units in tabulating the reports. Secretary Woodward and Chief Gottschall believed that it would be interesting to tabulate the reports of larger municipalities as

well as the counties and accordingly the reports of the year's work submitted to Secretary Woodward by Mr. Gottschall show the work done in 85 of the larger cities and towns in Pennsylvania.

MORRISON'S COVE COAL FIELD MYTH SAYS GEOLOGIST

STATE COLLEGE, Pa., Nov. 24.—Dreams of wealth through the possible development of coal measures thought to abound in the vicinity of Morrison's Cove, in Bedford county, have been shattered. For over fifty years the residents there have shown great interest in a bed of black rock of coal-like appearance which occurs along the mountain a short distance from New Enterprise. Recently the citizens of that town have taken

steps to prospect the deposit, and consulted Dr. E. S. Moore, Dean of the School of Mines at the Pennsylvania State College, urging him to make a personal investigation. Dean Moore has just returned to State College with the announcement that there will never be any possibility for finding coal in that section.

Many years ago a shaft was sunk to a depth of about fifty feet, and a well a short distance from the shaft was drilled to a depth of 84 feet, in an effort to locate the source of a deposit of black shale resembling coal smut. Although the shale resembles coal when it has been highly squeezed by the movements of the rocks, it was found that it occurs in a formation thousands of feet below the coal measures in what is now known as the Reedsville rock formation, just above the Trenton limestone. Dean Moore, who is one of the country's leading geologists, says that drilling has been done on this formation in a number of places in Centre county but all efforts are useless since no coal has been found

anywhere in the world in formations as old as the Reedsville.

That's the Way It Is. Uncle Bill Bottletop says that too few people lay by anything for a rainy day and too many lay by something for a dry spell.—Washington Star.

DON'T DESPAIR

Teamster's Life Saved

"Peterson Ointment Co., Inc. I had a very severe case on my leg for years. I am a teamster. I tried all medicines and salves, but without success. I tried doctors, but they failed to cure me. I couldn't sleep for many nights from pain. Doctors said I could not live for more than two years. Finally Peterson's Ointment was recommended to me and by its use the sore was entirely healed. Thankfully yours, William Mease, West Park, Ohio, care P. G. Bette, Box 199."

Peterson says: "I am proud of the above letter and have hundreds of

others that tell of wonderful cures of eczema, piles and skin diseases." Peterson's Ointment is 60 cents a box. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.

RESOLUTIONS OF RESPECT

Whereas, It has pleased Almighty God in His infinite wisdom to remove from our midst our beloved sister, Mrs. Margaret Mease, who departed from this life November 8, 1920, therefore be it Resolved, That we extend our heartfelt sympathy to the bereaved family, and further, Resolved, That she was a charter member of Clearfield camp No. 25, P. O. of A. and is worthy of much honor and respect. Resolved, That in her death we

have lost a true and loving sister and her vacant place reminds us that the reaper, death, has claimed his own.

Resolved, That while we mourn and regret our loss, we bow in humble submission to the will of Almighty God, who ruleth and doeth all things well.

Resolved, That our charter be draped in mourning for thirty days and that these resolutions be spread upon our minutes and a copy be sent to the bereaved family and the same to be published in the town papers.

Women of All Ages and Times

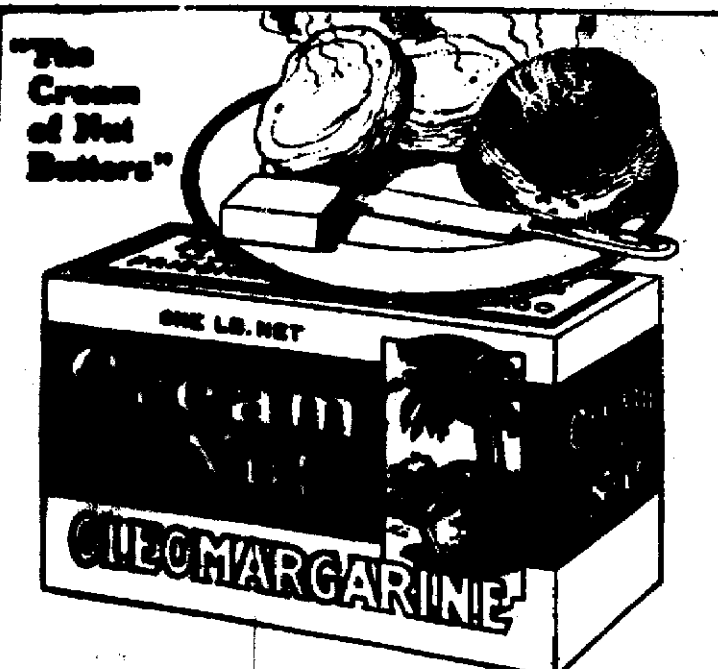

Ask your mother, aunt, grandmother, they will tell you of folks they have known who were cured of the many distressing, painful diseases which occur in most women's lives, by taking Dr. Pierce's Favorite Prescription, which is sold by druggists, in both fluid and tablet form. What women say:

Mrs. Fred Milford, 207 East Second St., Oil City, So. Side, Pa., says: "When I was a girl about sixteen years of age I suffered from functional disturbances. Dr. Pierce's Favorite Prescription is the medicine that was given to me to restore me to perfect health. It did all that could be desired in regulating my system and relieving me of pain. I heartily recommend Dr. Pierce's Favorite Prescription to all young girls."

Mrs. Catherine Malkner, 70 Mowallen St., Wilkes Barre, Pa., says: "About thirty years ago I had my first experience with Dr. Pierce's medicine. After motherhood my health failed. I did not get any help in any medicine I took. At last I saw the 'Favorite Prescription' advertised and decided to give it a trial and it completely built me up in health and strength. Since that time I have always taken 'Favorite Prescription' when in need of a tonic and I always found it very beneficial and consider it the very best women's medicine there is."

Mrs. W. E. Nunemaker, 13 Morrow Ave., Bradford, Pa., says: "I have taken Dr. Pierce's Favorite Prescription off and on for the last fifteen years when I have felt run down or in need of a tonic, and consider it very good. I first took this medicine during middle life and it proved so very beneficial at that time that I have taken it since whenever I feel the least bit run down, and it has never failed to give satisfactory results."

Here's a Test for Flavor!

JUST spread Cream of Nut on hot biscuits—then you'll appreciate its wonderful aroma and flavor. Heat, you know, is the best test of margarine or butter quality. Prove Cream of Nut's quality this way.

Potentially Soft Cream Cheese Margarine—of equally high quality—is recommended to those who prefer the natural product.

MARRY EARLY SAYS COUPLE WHO WERE WED 63 YEARS AGO

NEW CASTLE, Pa., Nov. 23— "Every one should get married, and when young, make their fortunes together, and be a help to each other. It is the only way in which one can go through life happy."

Take it from Philip V. Jones, boys and girls, that's the one sure recipe for lifelong bliss. And Jones ought to know, 83 years young, married 63 years and as much in love with Mrs. Jones as the day they were married in 1857 with all the gorgeousness and splendor of a church wedding in South Wales, their birthplace. Mrs. Jones is one year younger than her husband.

In 1863 the couple came to America and settled in New Castle. After that, "we worked hard and played hard," said "Ma" Jones. "I have come through 63 years of married life and would not give up one of my joys or sorrows and there have been many of them. I urge every girl to pick out the right man and marry him."

"I should say the women do pick out the men," with a little grin at "pa." "The men never know what's happening to them."

The couple are the parents of ten children.

COURT NOTES

Attorney L. D. McCall begun suit in the replevin office yesterday against the United Traction Railway company of DuBois, on behalf of H. M. Ristich, who is seeking to recover \$202.38 from the Traction Company for damages to his automobile which was struck by a street car on July 17th last.

Miller & Hartwick entered suit on behalf of the Clearfield Hardware Company against Charles G. Gill, of Madera, for the purpose of recovering \$236.40 for merchandise supplied to the defendant during the years of 1918-19.

Kramer & Kramer and A. M. Liveright, representing the heirs of the late William Confer, began ejectment proceedings against James L. McGonigal, of Pottersdale, in attempt to secure possession of a 10 acre tract of land in Karthaus township. The plaintiff's claim the land was purchased by William Confer, their father from William Burfield away back in 1860, and that the property has since remained rightfully theirs. Despite these alleged facts, they claim McGonigal fenced the property up some time ago and has since claimed ownership thereof.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.

Fraternal Emblems

I have just received what is without a doubt, as fine a showing of fraternal emblems as can be seen anywhere.

Every fraternal organization is represented among the

Buttons, Charms, Pins

and as an Xmas gift they will be ideal. These are all 14 karat gold—just the right alloy to give the longest wear.

Come in and see them.

TURN HAIR DARK WITH SAGE TEA

Grandma kept her locks dark, glossy and youthful with a simple mixture of Sage Tea and Sulphur

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandma's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or

a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Three Results.
Reading maketh a full man; conference a ready man; and writing an exact man.—Bacon.

FRANK L. PASSMORE, Mgr.

ALTOONA WOMAN COULD SHOUT FOR JOY, SHE SAYS

Mrs. McManamy Says She Was Happiest Woman in Town When She Realized that Tanlac Was Restoring Her Health

"When I stop to think of what Tanlac has done for me, and how it has overcome my awful suffering, I could shout for joy," was the enthusiastic statement made by Mrs. S. J. McManamy, of 1121 15th Avenue, Altoona, Pa.

"Before I got Tanlac I suffered dreadfully for about fifteen years with the worst kind of stomach trouble, and I believe I was the happiest woman in Altoona when I felt my health coming back. My troubles had just about gotten the best of me, and I hardly expected to see a well day again. After eating I suffered much agony with cramping pains that I had to lie down for hours, and would bleed up with gas which pressed up against my heart until my breath came in short, quick gasps like I was choking to death. I had to diet myself to the very lightest of food, and was so weak I could hardly walk across the room. My kidneys, both of me a great deal, and I had such terrible pains in my back that I would just almost cry out. At night I could

scarcely sleep, and my nerves were so shattered that I was just almost a nervous wreck.

"My very first bottle of Tanlac helped me more than anything else I had ever tried, so I just kept on taking the medicine until my troubles have all disappeared. I have a splendid appetite now, and can eat just anything I want, and never have an ache or pain of any kind. Why, I'm feeling just fine in every way, and can't help but be thankful to Tanlac for what it has done for me."

Here is another instance of the wonderful powers of Tanlac. Mrs. McManamy is only one of many hundreds who have taken it with the same gratifying results. Tanlac proved of great benefit to her because it contains certain medicinal properties which enrich the blood and promote a healthy appetite for nourishing food. Tanlac has been very successful in overcoming nervousness and sleeplessness, not from a quieting effect on the nerves, for it has no such effects but by strengthening the nerves and the body, and bringing the normal state of health through its effect on the appetite and nutrition of the body.

Tanlac is sold by all leading druggists everywhere.

Andrew Harwick left today for Greensburg where he will spend Thanksgiving with his daughter Mrs. Mary H. Crook.

Thanksgiving Fruit and Vegetables

We're going to have the daintiest array of fruits and vegetables for your Thanksgiving dinner that we have shown for several years.

Everything that the market affords we'll have here for you.

Thorn Bros. RED CROSS ROLL CALL JOIN NOW

THAT BUCKWHEAT STORY EXPLAINED

Knapp, Bowman, Passmore & Co., local turkey hunters who are engaged with getting much wilder than the turkeys they brot home from their recent turkey hunt, are now out with an alibi as to the nature of their turkeys. The hunters spent several days in the Bedford county woods, occupying a cabin in the mountains. Passmore was the cook for the party and he happened to miss it with his buckwheat cakes the first morning in camp and it was necessary to throw a couple hundred of the sinkers away. The unappetizing "washers" were rolled down hill from the camp into the brush and the turkeys came along and tackled them.

Knapp says his turkey had such a load of these heavies on board when he came along that the gobble could not rise to fly and fell an easy prey to his unerring marksmanship. He says that accounts for the buckwheat cakes found on the turkey after his reaching Clearfield.

OLD STANDBY, FOR ACHES AND PAINS

Any man or woman who keeps Sloan's handy will tell you that same thing

SPECIALLY those frequently attacked by rheumatic twinges. A counter-irritant, Sloan's Liniment soothes the congestion and penetrates without rubbing to the afflicted part, soon relieving the ache and pain. Kept handy and used everywhere for reducing and finally eliminating the pains and aches of lumbago, neuralgia, muscle strain, joint stiffness, sprains, bruises, and the results of exposure. You just know from its stimulating healthy odor that it will do you good! Sloan's Liniment is sold by all druggists—35c, 70c, \$1.40.

Sloan's Liniment

When Santa Brings a Piano

Thanksgiving 1920

AS A COMMUNITY, and a nation, let us with one accord dedicate this great American Day to true thanksgiving.

Throughout the world no land is so blessed with productive power, no people so favored with natural resources. Peace has opened up a future of golden opportunity which is in our power to fully grasp.

With just cause for Thanksgiving may we be worthy of our inheritance and together work, save, cooperate and produce in a manner worthy of America.

THIS INSTITUTION WILL BE CLOSED ALL DAY.

Tired Out?

Do you know that languidness, that "awful tired feeling," heaviness, lame or weak back, sore muscles, stiff or swollen joints, rheumatic pains, lumbago, in the great majority of cases, indicate kidney trouble?

Foley Kidney Pills

act promptly and effectively to restore weak, overworked or diseased kidneys and bladder to a healthy condition.

Mrs. Robert Blair, 431 S. 20th Street, Terre Haute, Ind., writes: "I suffered two years with kidney and bladder trouble frequently getting backache. Sometimes I would arise feeling very tired and having headaches, and so I bought some of your pills. I saw Foley Kidney Pills advertised and made up my mind to try them. After taking them a few weeks I found my kidneys were restored to healthy normal action. I am also free of all those tired aches and headaches and my vision is no longer blurred. My recovery is entirely due to F. O. B. Kidney Pills which I gladly recommend."
